

PATENTS FOR ASEA PRODUCTS

1. 8,367,120 – Method and Apparatus for Producing a Stabilized Antimicrobial Non-Toxic Electrolyzed Saline Solution Exhibiting Potential as a Therapeutic
2. 8,663,705 - Method and Apparatus for Producing a Stabilized Antimicrobial Non-Toxic Electrolyzed Saline Solution Exhibiting Potential as a Therapeutic
3. 9,255,336 - Method and Apparatus for Producing a Stabilized Antimicrobial Non-Toxic Electrolyzed Saline Solution Exhibiting Potential as a Therapeutic
4. 8,455,010 – Product and Method for Producing an Immune System Supplement and Performance Enhancer
5. 9,486,481 – Method of Modulating Fatty Acid Mobilization and Oxidation
6. 9,446,072 – Methods of Ameliorating Oxidative Stress by Increasing the Efficiency of GPX and SOD Activity
7. 9,597,353 – Redox Signaling Gel Formulation

Patents applying to ASEA-related products:

1. ASEA – 8,367,120; 8,663,705; 9,255,336; 8,455,010; 9,486,481; 9,446,072;
2. RENU 28 – 9,597,353; 9,255,336; 8,663,705
3. Eye Serum – 9,597,353; 9,255,336; 8,663,705
